Solar Keymark – overcoming trade barriers, providing access to incentives

The Solar Keymark helps overcome national trade barriers and provides opportunities to qualify for fiscal and regulatory government schemes – this Solar Keymark Workshop aims at disseminating information on the benefits of the Keymark and providing information on how to obtain the Solar Keymark.

Workshop Target Group

Anyone who needs to know more about the Solar Keymark especially Manufacturers, Distributors and Suppliers of Solar Thermal products, Representatives of National, Regional and Local government, Certification Bodies and Test Institutes.

The Solar Keymark success story

The workshop will initially focus on the breakthrough growth of the Solar Keymark since its creation only three years ago and go on to discuss the process for obtaining the Keymark. Experienced Solar Manufacturers, Certification Bodies and Test Institutes will then present their knowledge of the Keymark and this will lead into a question and answer session where all the presenters are available to discuss your queries.

Programme of the Workshop:

9.45	Registration
