

SCF project reporting

SCF_N0008R2

Status: September 2013

Acronym of project:	3C01-SK-Trade		
Title of project:	Promoting the Solar Keymark in trade fairs		
Project Start Date:	01/05/2012	Project End Date:	31/12/2013
Report	Final	Reporting period (up to):	12 2013

1. Overall progress

Please evaluate the evolution of the project so far, considering:

A)	Fulfilling initial objectives	1 (will fail) → 5 (will fully achieve)	4
B)	Complying with timeline	1 (critical delay ¹) → 5 (on schedule or ahead schedule)	4

1) In case of a critical delay, action shall be taken: revision of content, budget, duration or project termination.

Please provide a short explanation for the rating indicated above:

A)	The objectives are still valid, even if delay exists.
B)	The project needs to be extended for 6 months.

2. Main achievements towards goals and milestones

Please indicate main achievements of the project so far, in order of relevance:

a)	SK exhibitor at Intersolar for two years (booth shared with ESTIF)
b)	Public presentation organised at Intersolar
c)	Materials to promote SK produced (for Intersolar totem was used instead of roll-up and posters)
d)	
e)	

3. Deliverables

Please indicate the progress regarding deliverables:

C)	Progress regarding deliverables	1 (completed < 25%) → 5 (completed = 100%)	4
----	---------------------------------	--	---

	Information about each deliverable	Due Date	Completed (%)	Delivery Date ²
D1	Roll-up (replaced by totem)	30/06/12	100%	31/03/13
D2	2 posters (1 on SK and 1 on Standards & Certification)	30/6/12	100%	12/06/12
D3	a) Participation at 2 trade fairs (2x Intersolar)	31/12/12	100%	13/6/13
D4	Conference participation	31/12/12	100%	30/06/13
D5		dd/mm/yy	%	dd/mm/yy

(2) Actual or foreseen delivery date

4. Deviations from initial plan

Please indicate main deviations and proposed corrective measures:

The participation at a conference in Zagreb had to be cancelled at the last minute due to health reasons of the speaker (Xavier Noyon). Alternative conferences in South Eastern Europe were either not interesting or not feasible. Instead a public presentation was done at Intersolar Europe 2013.
